

DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 08 June 2021 at 01:24 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Mainly Low air pollution is expected across the UK. Pockets of Moderate air pollution levels are possible in both the extreme northwest and parts of the southeast.

Tomorrow: Air pollution levels should again be mainly Low, with localised Moderate levels in parts of southeastern England, and perhaps the Northern Isles.

Outlook: Air pollution should remain predominantly Low through this period, with periodically breezy conditions helping to disperse pollutants, and with air over the UK mainly sourced from the Atlantic.
